IT MATTERS NOT How Sick You Are or How Many Physicians Have Failed to Help You.

Dr. David Kennedy's Favorite Remedy will Cure You if a Cure is Possible.

Doctors are not infallible and there are many instances where they have decided a case was hopeless and then the patients astonished everyone by getting well and the cause of their cure was Dr. David Kennedy's Favorite Remedy. A case in point is that of James Lettuce of Canajoharie, N. Y., who writes:

"Some years ago I was attacked with pains in my back and side that were fearful in the extreme. I could not control my kidneys at all and what came from them was mucous and blood. I was in a terrible state and suffered intensely. A prominent physician of Albany, N. Y., decided that an operation was all that would save me. I dreaded that and commenced to take Dr. David Kennedy's Favorite Remedy. I felt better almost instantly. When I had taken about two bottles, the flow from the bladder was much clearer, the pain stopped, and I was saved from the surgeon's knife and an awful fate."

Dr. W. H. Morse, the famous physician of Westfield, N. J., has this to say of this great medicine:

"I have known it to cure chronic inflammation of the kidneys, where the attending physician pronounced the case incurable."

No form of kidney, liver, bladder or blood disease, or the distressing sicknesses so common to women, can long withstand the great
